

April Learning Focus

The learning theme is "Transportation." We will talk about cars, trucks, vans, buses, trains, boats, and airplanes. We will plan imaginary trips using different forms of transportation. We will listen to songs about traveling, and build train tracks, garages, and bridges in the Blocks. We will transform our Dramatic Play Center into a train and train station. We will continue to practice our writing skills by copying transportation words and numbers in the Writing and Math Center. If you can, take your child to see or ride a bus, train, or unusual car or truck. See our display of Spring in classroom using the monthly educational focus!

Toddler Classroom

During the toddler stage, children still learn best during natural give and take with their teachers and with other children. At MITI Kids, we provide a variety of experiences during Floor Times with small groups of toddlers and at learning centers around the classroom. See Parent Board to see learning theme.

2016 Graduation Plans

MITI Kids is an actual learning and testing process, preparing preschoolers for KINDERGARTEN! Children do not attend MITI Kids for just naps, coloring, graham crackers and playing all day.

Preschool Graduation is an important transition on a child's path and it builds their confidence. The graduation exercise is so much fun and it really gives MITI Kids an opportunity to shine and show everyone what they've learned. The teachers and students makes a good effort to practice a lot and make it a successful event and the smiles on their faces really tell it all. Please work with your child to prepare them for this great achievement! They will dressed in caps and gowns. Bring your camera to take memorable pictures. Dinner will be served.
