

May Learning Focus

Our theme is "Growing Things." We will talk about growing flowers, trees, and food. Our big project for the month is our Alphabet Garden. We would like to plant flowers, herbs, and vegetables that begin with each letter of the alphabet.

We would appreciate donations of plants, gardening tools, and potting soil. We will spend the month taking care of our garden and observing its growth. We will keep journals to record our observations. If you can, please take your child to a farmers' market this month so they can see locally produced fruits, vegetables, and herbs, or involve them in a garden.

Toddler Classroom

During the toddler stage, children still learn best during natural give and take with their teachers and with other children. At MITI Kids, we provide a variety of experiences during Floor Times with small groups of toddlers and at learning centers around the classroom. See Parent Board to see learning theme.

REMEMBER!!!!

1. Graduation Sunday May 15th.
2. Bring seeds for our alphabet garden

Volunteers Needed

1. Safety Hours during playground times
2. Chaperones for field trips.
3. Read Parent Board for additional volunteer
4. Assit with graduation
